

📢 Advance Warning (Hatra'a Makdima)

HFC provides 3–5 minute advance warning for distant threats (e.g. Yemen). This is NOT the siren — prepare now, shelter when the siren sounds.

Two-person drill: one person reads the CALL column aloud, the other responds. Alternate roles each time.

Solo: read each call aloud, then answer it yourself.

Advance warning ≠ siren. You have 3–5 minutes. Use them to prepare. When the actual alert sounds, follow standard shelter procedure.
